

“The vision of the Live Liverpool Master Plan is to create an exciting destination for residents, workers and visitors. Awakening the shoreline of the George’s River with strong connections to the Liverpool CBD.”

KEY SELLING POINTS

- **LIVE BETTER**
Health precinct linking to Liverpool Hospital and featuring an international conference centre and hotel attracting medical professionals, along with a potential university campus, student housing and aged care.
- **LIVE SMARTER**
Business hub with affordable work spaces for start-ups, and a medical production and distribution centre with easy access to the M5 Motorway, Intermodal Terminal and Western Sydney Airport
- **LIVE VIBRANTLY**
Cultural precinct with flexible spaces including an outdoor amphitheatre for community events and cultural activities.
- **LIVE TOGETHER**
Improved green spaces and access to the river, along with new housing integrated throughout the precincts.

INSPIRATIONS

- Highly desirable location on the banks of the George’s River and close proximity to Liverpool CBD.
- Opportunities to build on Liverpool Hospital and create a leading health and education precinct for South West Sydney.
- Proximity to the M5 Motorway and Intermodal Terminal, and easy access to the proposed Western Sydney Airport attracting business and industry.
- Cultural diversity of Liverpool and opportunities to provide places for cultural celebration and community gathering.

TEAM MENTOR

IOAN MORGAN

“It has been a pleasure to watch this group of young professionals grasp the task at hand and have the excellent platform of the Future Net Business Leadership Course to express themselves creatively to develop a comprehensive and sustainable solution to the future development of Liverpool that many a development firm would be envious of!”

TEAM MEMBERS

LAUREN HARDING

“Working on the Live Liverpool master plan has been a fantastic challenge. I’ve learnt a lot about master planning which directly applies to my work, and made some great professional connections that I’m sure will benefit my career.”

REBECCA CHUA

“The lecturers were inspirational, encouraging and provided a platform for learning in order for me to grow both as an engineer and a person. The course has also allowed me to meet and work with like minded professionals within the industry on a project to design a masterplan for Liverpool 2030.”

CAROL SCHREIBER

“The project has been both interesting and challenging, bringing together a group of professionals of varied background to produce a vision for the future of Liverpool City towards 2030.”

BEN CARGILL

“It has been a pleasure meeting and working with such a talented group of young professionals from Industries outside of my own. I look forward to maintaining & building upon the relationships that have been forged throughout the experience and hopefully working together again in the future.”

RYAN MELVOLD

“The FutureNet course has provided me with an opportunity to learn a new set of skills but most importantly, meet a great bunch of like-minded colleagues while doing so.”

AARON HUGHES

“The opportunity to work with a multidisciplinary team of young professionals on a masterplan project has been both a challenging and highly rewarding experience.”

SIMON PALMER

“The FutureNet course was informative and added to my professional skill set. I value greatly the experience I have gained and look forward to working in the future with the professionals I have had the privilege to work with in a team”
