Meet the Client – Development Victoria

Join the General Manager of Civic Projects, Tim Bamford at an interactive session on the role of Development Victoria and future government infrastructure.

Tim will address a wide range of topics relating to his and his organisation's role, including:

- Role and operation of Development Victoria
- Current projects and future opportunities
- Challenges in large-scale social infrastructure delivery

About Development Victoria

DV provides project delivery services and advice to Victorian Government departments and other agencies engaged in the delivery of complex, technically challenging, and invariably unique projects of state significance.

Their expertise in project delivery – whether via traditional project delivery approaches or via a public private partnership model – is evident in past projects delivered, in projects currently in development, and in projects under construction.

About Tim...

Born in the UK, Tim Bamford first arrived in Melbourne in 1996 after several years working on engineering projects in Asia.

Tim joined the Australian Grand Prix Corporation as Engineering Manager and remained there in various roles for 11 years, including three as Chief Executive Officer.

After joining Major Projects Victoria in 2008, Tim was seconded to the Victorian Bushfire Reconstruction and Recovery Authority to direct the clean-up of more

than 3000 properties destroyed in the Black Saturday bushfires in 2009.

Tim then returned to Major Projects Victoria as Project Director for the Victorian Government's largest ever investment in sporting infrastructure, the \$366 million Stage 1 of the Melbourne Park Redevelopment. In January 2012, Tim was appointed as Executive Director of Major Projects Victoria. Since the merger of Major Projects Victoria into Development Victoria, Tim is leading the Civic Projects Division, overseeing the organisation's \$1.9 billion construction project portfolio.

Thank you to Colin Biggers & Paisley for sponsoring this event!
